Residential Construction Project Application Requirements

1. **Zoning** compliance application – completed (fee due upon issuance).
2. **Building** permit & plan examination application – completed (fee due upon issuance).
3. Two (2) sets of **construction documents** no larger than 11 x 17 inches in size (limited by current digital scanning capabilities) which at minimum contain the following information *or* [construction documentation in digital format which at minimum is 300 dpi, PDF format and unlocked]:
 - **Site plan** to scale showing the size and location of new construction and existing structures (if applicable) on the site and distances from lot lines. Fire apparatus access driveway details if structure exceeds 150 feet from fire apparatus access road. [R106.2]
 - **Soil load-bearing value** (presumptive or known) from soil tests *or* USDA “Soil Survey of Berrien County, Michigan” *or* other source(s). [R106.1.1]
 - **Footing and foundation** details including, footing and foundation wall dimensions, concrete compressive strength, CMU (block) information, air-entrainment, wall height, rebar size and location. [R106.1.1]
 - **Floor construction** details including, species and grade of dimensional lumber, engineered floor framing layout and manufacture information. Floor design loads must be indicated along with spans (distance) between supports and girder information. Indicate type of columns (if applicable) and grade and thickness of wood structural panel sheathing (subflooring). [R106.1.1]
 - **Floor layout** in plan view (scaled) with dimensions of all exterior openings, dimensions of all rooms and spaces and the square footage of habitable rooms (used for living, sleeping, eating or cooking). Rooms must be labeled for occupancy use. [R106.1.1]
 - **Wall construction** details including, height and stud dimensions, grade and spacing. Top and bottom plate details (if platform framing) and connection details with manufacturer information (if applicable). Header and beam information for all openings and wall bracing method utilized. Detail exterior and interior coverings including, wood structural panel sheathing, water-resistive barrier (R703.2) and exterior wall finish. [R106.1.1]
 - **Roof – ceiling construction** including, roof slope, framing details for rafters and/or truss layout and truss design drawings with ALL applicable loading information. Roof sheathing grade and thickness, roof ventilation details with intake and exhaust information (see NCT ventilation sheet). [R106.1.1]
 - **Roof assemblies** should indicate the classification of roof covering material with underlayment details and ice barrier information. If solar panels or other rooftop equipment will be utilized indicate adequate design and provide manufacturer information. If SIP (Structural Insulated Panels) or other engineered roof construction/assembly products will be used provide manufacturer information. [R106.1.1, R106.1.2]

- **Chimneys and fireplaces** must have sufficient details and be located on the floor plan. Provide manufacturer information for factory units. [R106.1.1]
- **Energy efficiency** details must be provided which demonstrate compliance to the current Michigan Uniform Energy Code. This office will accept REScheck and demonstrated compliance to the 2009 International Energy Conservation Code. [R106.1.1]
- **Mechanical** systems details if required should be submitted to the Niles Charter Township Mechanical Division for review. Consult the Niles Charter Township Mechanical Permit and Plan Examination form for plan review information. [R106.1.1]
- **Plumbing** systems details if required should be submitted to the Niles Charter Township Plumbing Division for review. Consult the Niles Charter Township Plumbing Permit and Plan Examination form for plan review information. [R106.1.1]
- **Electrical** systems details if required should be submitted to the Niles Charter Township Electrical Division for review. Consult the Niles Charter Township Electrical Permit and Plan Examination form for plan review information. [R106.1.1]
- **Appendix** information should be included if applicable. The following appendices may apply as adopted by the State of Michigan under Rule 408.30401:
 - A. SIZING AND CAPACITY OF GAS PIPING.
 - B. SIZING OF VENTING SYSTEMS SERVING APPLIANCES...
 - C. EXIT TERMINALS OF MECHANICAL DRAFT AND DIRECT-VENT VENTING SYSTEMS.
 - D. RECOMMENDED PROCEDURES FOR SAFETY INSPECTIONS...EXISTING APPLIANCE.
 - E. MANUFACTURED HOUSING USED AS DWELLINGS (ON PRIVATE OWNED LOTS).
 - F. RADON CONTROL METHODS.
 - G. SWIMMING POOLS, SPAS AND HOT TUBS.
 - H. **NOT ADOPTED (PATIO COVERS).**
 - I. **NOT ADOPTED (PRIVATE SEWAGE DISPOSAL).**
 - J. EXISTING BUILDINGS AND STRUCTURES.
 - K. SOUND TRANSMISSION.
 - L. **NOT ADOPTED (PERMIT FEES).**
 - M. HOME DAY CARE – R-3 OCCUPANCY.
 - N. VENTING METHODS.
 - O. GRAY WATER RECYCLING SYSTEMS.
 - P. **NOT ADOPTED (SIZING OF WATER PIPING SYSTEMS).**
 - Q. IRC/NEC CROSS REFERENCE.
